ABOUT MATSU

Rooted in craft. Built for architecture.

We bring timeless, high-quality furniture to workplaces, hospitality venues and homes across Europe and the Middle East. Since 1996, MATSU has developed complete workspace solutions and pioneering office concepts for companies around the world.

In 2024 the group founded MATSU Europe & Middle East as a joint venture in Germany – the next stage of its international growth. From Gomaringen in Germany and our showroom in Dubai South, we support architects, interior designers, dealers and private clients – from the first sketch to installation.

Our furniture blends functionality with modern aesthetics and is made to last. We work with renowned international designers and hold every piece to the highest standards of craftsmanship, material selection and production quality – with custom solutions tailored to the space whenever a project needs them.

BORN IN THE
TIBETAN HIGHLANDS

Yak leather, hand-woven wool and the rugged beauty of the Tibetan highlands — each piece tells a story of resilience, quality and respect for the craft.

Developed by Joeri Reynaert Studio, MATSU and LHAYAK, the collection draws its essence from the traditions of Tibetan nomads and connects the ecological balance of nomadic culture with the demands of modern interiors.

Premium yak leather comes from the small family-run company Lhayak; fabrics are hand-woven on the Tibetan plateau by artisans who preserve ancient techniques. MATSU pays fair rates for these materials – typically five times what farmers would receive on the open market – directly supporting local communities.

Yak-hair cloth, woven by hand on the Tibetan plateau.

Preparing yak hair for spinning.

Hand-weaving on a traditional loom.

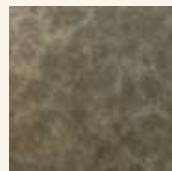

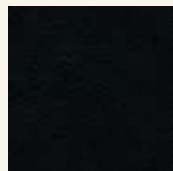

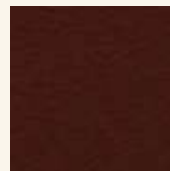

THE DESIGNER

Joeri Reynaert

Joeri Reynaert – award-winning Belgian designer and former in-house product developer for Extremis and Foscarini – is the creative force behind the collection. He took part in two research expeditions to Tibet and was directly involved in the procurement and processing of the yak hides.

YAK LEATHER

Naturally grazed yak hide with a dense fibre structure – robust, insulating and durable. Non-chromium leather process; natural grain and marks are part of the specification. Yak leather develops a rich patina over time – no two pieces are alike.

SKLM-01
Seating

W 680 D 870 H 680 SH 320
Yak leather + yak-wool fabric, oak base

Traditionally used to create black tents for nomadic herdsman, yak hair is hand-cut using eco-friendly techniques to preserve its integrity and avoid water pollution from chemical processes. This innovative approach reimagines a time-honored material for contemporary furniture design, ensuring a luxurious aesthetic and long-lasting quality. In partnership with Tibetan farmers, the Nomad Skin Lounge Chair upholds fair trade practices and supports sustainable livelihoods.

01 · THE NOMADIC COLLECTION

Skin Sofa

Inspired by Tibetan craftsmanship, it shows the beauty of yak leather and handwoven wool.

Introducing the NOMAD SKIN SOFA, a stunning piece of furniture that redefines comfort and style. This extraordinary designer sofa draws inspiration from Tibetan craftsmanship, showcasing the beauty of yak leather and handwoven wool. Designed for those who appreciate uniqueness, each sofa is an ode to sustainable luxury. By selecting the NOMAD SKIN SOFA, you not only elevate your living space but also contribute to a more sustainable future.

Our high-quality yak leather exhibits remarkable durability while being incredibly soft to the touch. Unlike traditional cowhide, yak leather ages beautifully, developing a rich patina over time.

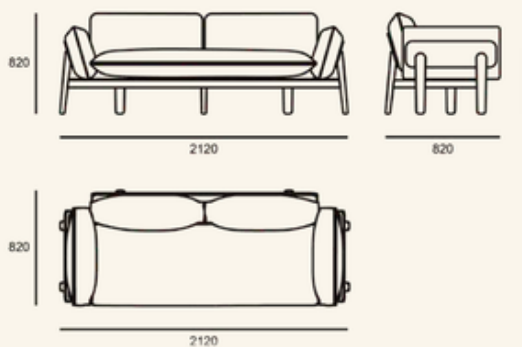

- Exceptional Materials: Tibetan fair sourced Yak Leather and Yak Hair Wool on the Backside of each Sofa.
- Sustainable Practices: Every purchase supports Tibetan highland farmers with fair wages and promotes local craftsmanship.

Wrangler Rocking Chair

A touch of the childhood rocking horse, rocking gently to move body and mind.

Experience the freedom of movement and creativity with the NOMAD Wrangler - Design Rocking Chair. Designed to blend relaxation with functionality, this innovative stool transforms any workspace into a dynamic hub of inspiration. The Wrangler stool encourages you to embrace free-thinking while adding a touch of joy reminiscent of childhood rocking horses.

Perfect for contemporary offices, the NOMAD Wrangler promotes a fun atmosphere that helps balance the pressures of work with moments of leisure. Instead of being confined to rigid office seating, users can rock gently, stimulating both body and mind. This unique interactivity makes every moment at your desk a bit more enjoyable.

- Encourages active movement and helps improve your posture.
- Versatile design complements any workspace style with ease.

MATERIALS

Yak leather · Fabric · Solid wood – finishes in the Materials Library, p. 222

The design of the NOMAD Wrangler draws inspiration from the simplicity and elegance of a saddle. Its light aesthetic allows it to fit seamlessly into any surrounding, whether your office is modern, traditional, or eclectic. The arc-shaped seat not only resembles a saddle but also promotes a healthy riding posture, making it easier for users to shift their positions throughout the day and maintain their physical comfort.

Mesh Yak-Leather Lamp

Schematic – dimensions in mm · manufacturer drawing

A laser-cut band of yak leather creates a captivating interplay of light and shadow.

The Nomad Mesh lamp is a statement of refined elegance, combining modern craftsmanship with timeless materials. Encased in an exclusive, laser-cut yak-leather band, this unique design creates a captivating interplay of light and shadow.

In its suspended version, the leather band not only enhances the aesthetic appeal but also serves as the hanging element, giving the lamp a weightless yet grounded presence. Alternatively, the floor-standing version stands tall, radiating a warm, ambient glow that transforms any space into an intimate retreat.

Crafted for those who appreciate the fusion of tradition and innovation, Nomad Mesh embodies the spirit of nomadic luxury—versatile, striking, and effortlessly sophisticated.

Shades of Yak Textiles

Schematic – dimensions in mm · manufacturer drawing

Handwoven from yak fabric, following techniques passed down through generations in the Tibetan highlands.

Shades of Yak

Discover the heritage of Tibetan craftsmanship with Shades of Yak. These decorative cloths are meticulously handwoven from authentic yak fabric, honoring traditional techniques passed down through generations in the highlands of Tibet. Each piece reflects the artisans' dedication to preserving their culture while creating unique, sustainable textiles.

Each Shades of Yak textile is not only an accessory but a piece of art, woven with care and precision by Tibetan artisans who rely on the rich, natural fibers of their environment. The yak fabric is known for its durability, warmth, and unique texture, adding depth and an earthy touch to interior spaces.

- Handwoven Yak Textiles: Crafted from genuine yak fabric, these cloths bring natural beauty and rich texture into any space.
- Complements NOMAD Collection: Thoughtfully designed to enhance the elegance of NOMAD products with organic charm.
- Diverse Designs & Sizes: Available in various patterns and formats, offering versatility for different styles and settings.

Boxwork Workstation

Schematic - dimensions in mm • manufacturer drawing

Visual privacy, acoustic performance and integrated light, combined in one architectural piece.

The Boxwork system by Matsu — designed by Joeri Reynaert — is a multifunctional architectural furniture piece that seamlessly combines visual privacy, acoustic performance, and integrated lighting into a single elegant solution. It is conceived for contemporary work and living environments that demand flexibility, comfort, and aesthetic refinement.

The integrated rechargeable battery system provides up to 12 hours of cordless operation, allowing you to work completely independently of any power source.

Boxwork features a felt acoustic panel that doubles as a privacy screen, effectively reducing ambient noise and creating defined spatial zones without compromising openness.

Bowler Chair

A soft, curved silhouette that supports a relaxed, balanced posture.

The Bowler by Matsu is a sculptural seating piece that masterfully unites expressive form with ergonomic comfort. Designed by award-winning Belgian designer Joeri Reynaert, Bowler boasts a soft, curved silhouette that supports a relaxed, balanced posture while making a striking visual impact in modern interiors.

Elevated by a continuous frame and available in three distinctive base options — a warm four-leg wooden frame, a sleek four-leg metal frame, or a single central swivel base — Bowler flexes between settings and personalities.

Inspired by the classic collar – a timeless symbol of etiquette and refined style.

The MATSU Collar Sofa Collection is inspired by the classic “collar” – a timeless symbol of etiquette and refined style. With its distinctive high collar design, this series combines elegant proportions, clean lines, and exceptional comfort to create a sophisticated lounge experience.

Collar brings a quiet sense of prestige and polished comfort to modern interiors, making it a distinctive choice for environments that value both style and refined atmosphere.

- Signature high “collar” back design that creates a refined, gentleman-like silhouette
- Two-tone detailing that highlights the elegant form and clean lines
- Available as one-seater and loveseat, allowing flexible combinations for different spaces
- Perfect balance of communication-friendly openness and a sense of etiquette and class

02 • DESIGN JOERI REYNAERT

Pulse Sofa

An homage to the Barcelona Chair, with distinctive ECG-inspired legs and a dignified presence.

The MATSU Pulse Sofa, designed by Joeri Reynaert, pays homage to the legendary Barcelona Chair by Mies van der Rohe. Its generous proportions and distinctive ECG-inspired leg design give the sofa a strong, dignified presence.

Pulse acts like a “heartbeat” in modern office environments – injecting energy and dynamism into otherwise calm spaces. Ideal for executive lounges, premium reception areas, and high-end collaborative zones.

02

Wings Sofa Family

High “wings” on the sides create natural privacy for confidential conversations in open spaces.

Elevate your space with the Wings Sofa Collection from MATSU, a sophisticated lounge and seating family designed for modern offices, waiting areas, and collaborative environments. Featuring distinctive high “wings” on the sides, these sofas create natural privacy booths – perfect for confidential conversations, phone calls, or focused meetings while maintaining an open, inviting atmosphere.

Wings embodies MATSU’s expertise in creating inspiring office furniture that balances privacy, collaboration, and modern design. Whether for corporate headquarters, creative studios, or hospitality spaces, the Wings family adds both functionality and architectural beauty to any interior.

Perfect for projects seeking distinctive, high-performance lounge seating that promotes well-being and productivity.

- Privacy with Style: The signature high wings provide acoustic and visual separation, turning the sofa into a semi-enclosed “mini lounge” or “phone booth” without isolating users completely.
- Versatile Configurations: Available as sofas and complementary seating pieces, ideal for lounge zones, reception areas, breakout spaces, or executive lounges. Pairs beautifully with other MATSU collections for complete interior solutions.
- Premium Comfort & Design: High-quality upholstery, ergonomic support, and elegant proportions ensure lasting comfort and a premium aesthetic that blends seamlessly into high-end environments.
- Flexible Use: Supports standing/sitting transitions in dynamic offices and offers relaxed seating for impromptu talks or short breaks.

X-Sofa

Schematic - dimensions in mm • manufacturer drawing

Clean, straight lines and an X-inspired design language create a sense of lightness.

The MATSU X Sofa is a sleek and architectural lounge sofa that brings modern elegance to any space. Defined by clean, straight lines and a distinctive X-inspired design language, this sofa seamlessly integrates into contemporary interiors while creating visual interest and a sense of lightness.

The X Sofa combines sculptural aesthetics with everyday functionality, making it a sophisticated choice for projects that demand both style and practicality.

- Architectural Design — Strong geometric lines and minimalist silhouette that harmonize perfectly with modern architecture.
- Comfortable Lounge Experience — Generously proportioned seating with premium upholstery for superior comfort in lounges and breakout areas.
- Versatile & Timeless — Ideal for office lounges, reception areas, collaborative spaces, and high-end interiors.
- Premium Quality — Exceptional craftsmanship, high-quality materials, and attention to detail – true to MATSU's reputation for lasting excellence.

BA Lounge Chair Family

Sled, Swivel and Wooden Versions

Soft, enveloping comfort with a clean, contemporary outline.

The BA lounge chair family combines soft, enveloping comfort with a clean, contemporary outline. Choose a sled base for meeting and waiting areas, a 4-star swivel base on castors for flexible work lounges, or the warm wooden high-back and low versions for hospitality and residential-style spaces.

- Four base versions: sled, 4-star casters, wooden high-back, low wooden
- Upholstery in fabric group A or B, many colours
- Powder-coat or wood-leg colour of your choice

VERSIONS & DIMENSIONS (MM)

Sled	W 620 D 620 H 750 SH 450 Fabric A / Fabric B
4-star casters	W 620 D 580 H 760-860 Fabric A / Fabric B
Wood high-back	W 620 D 620 H 750 SH 460 Fabric A
Low wood	W 620 D 620 H 690 SH 420 Fabric A

Cuka

Workstation System

Rational in structure, sincere in craftsmanship, precise in its modular composition.

Cuka is a workstation system defined by rational structural aesthetics — sincere craftsmanship, extreme functional enquiry and precise modular composition. Clean lines and fluid combinations suit staff floors, manager areas and meeting spaces without visual clash.

Powder-coated steel square legs (40×40 mm), inset cable feet, brush flip lids and U-slot screens deliver a flexible open-office toolkit including single, double, quad and bar-height layouts.

- Strong cable management with inset upper cable feet and brush flip covers
- Multiple screen modes for open ↔ private switching
- Configurations: single, double, quad clusters and bar tables
- Optional leather desk pad, monitor arms, screen hangers and adjustable PC shelf

MATERIALS

Veneer · MFC · Lacquer · Powder – finishes in the Materials Library, p. 222

VERSIONS & DIMENSIONS (MM)

Square steel legs	40 × 40
Top thickness options	25 (MFC / veneer / lacquer) PC shelf capacity ≤ 15 kg; PC size ≤ W 213 × D 450 × H 480
	Exact desktop WxD not printed confirm with sales drawings
Tops	MFC (PVC edge, particleboard); Veneer (straight edge, particleboard); Lacquer (straight edge, MDF) 25 mm
Frame/legs	powder-coated steel ECKO; powder-coated aluminium supports (match frame colour)
Screens	hanging rack / fabric / U-slot; shelves & baffles in MFC, veneer or lacquer
Leather desk pad	steel inner panel, leather-wrapped
Monitor arms	white steel, 1-4 arms; clamp or cut-out mount
Screen hangers	file tray, flower tube, sorter, nameplate

VIOO

Modular Workstation System

A modular workstation system that moves cleanly through staff floors, manager suites and meeting spaces.

VIOO is a modular workstation system that moves cleanly through staff floors, manager suites and meeting spaces. Screens and accessories let users switch between open and private modes without visual disruption.

Beveled, lacquer-capable tops, flexible under-desk power and modular multi-angle frames deliver a complete everyday workplace — storage, cable management and functional accessories included.

- Modern minimal design; modular assembly for fast reconfiguration
- Beveled tabletop option with lacquer finish
- Flexible wiring via feet, upper legs and cable chains; hidden under-desk sockets
- Fabric screens for acoustic privacy; generous legroom
- Complete cabinet family with 86-panel power cutouts

MATERIALS

Veneer · Glass · MFC · Laminate – finishes in the Materials Library, p. 222

VERSIONS & DIMENSIONS (MM)

Hanging rack	slot D 25 × H 75; with 25 mm top → rack H 175
Rack screen	D 25 × H 375 (5 slots) or H 450 (6 slots)
Fabric screen	D 25 × H 375 or H 450
Glass on rack	H 200, R50, 6 mm toughened frosted glass
U-slot screen	D 20 × H 300/360; cloth hanging screen D 20 × H 750
Tabletop cabinet depth	350 (frosted acrylic sliding door)
Accessories	file tray 350×270×60; flower tube 45×55×130; sorter 85×95×95; nameplate 180×60; PC shelf 218×370×460 (adjustable)
Monitor arms (steel white)	1-4 arm spans W 506-1402 × H 472; clamp or cut-out mount
Tops	MFC (e.g. C-M-A-12/02/17), HPL (C-H-A-12/02), veneer (C-W-A-39/21), lacquer (C-W-A-07/08/05)
Steel frames/legs ECK0	C-S-A-31 sand white, C-S-A-18 light silver, C-S-A-40 sand grey; polished aluminium base option
Cabinets	MFC body, aluminium handles, lockable black powder-coated steel drawers, plastic feet; PC bay with heat grille
Aluminium slot colours	C-S-A-31 / C-S-A-18

03

ARK

Sit-Stand Desk

ARK is MATSU's 2023 sit-stand desk for dynamic workplaces — height-adjustable, visually simple, and engineered for health-focused open offices. Dual motors from Danish LINAK (global pioneer of lifting systems) ensure smoothness, safety and sustainability.

Telescopic frames adapt tops within a size range; multiple wiring forms (trace chain, column, foot) and desktop screens support single, double and quadruple layouts.

- LINAK DL6 three-stage columns — max thrust 800 N each; max speed 38 mm/s (no load)
- Standard stroke 650 mm; install dimension 560 mm
- Frame travel height ≈ 595–1245 mm
- Anti-collision rebound; intuitive hand controller; stable under full or empty load
- Single / double face-to-face / quadruple configurations

MATERIALS

MFC · Steel – finishes in the Materials Library, p. 222

VERSIONS & DIMENSIONS (MM)

Lifting column stroke	650; frame height range: 595–1245
Column finishes	matte white C-S-A-65 / matte black C-S-A-66 / matte grey C-S-A-67
Components	tabletop, corbel, frame, lifting column, table base, adjustable feet, control box, cable cover, hand controller
	Exact desktop WxD not listed confirm with sales drawings
Tops (MFC e.g.)	white, light grey, black, maple, oak, walnut
Fabric screens	MTPF
Steel powder frame	C-S-A-65/66/67
Options	counterpoint/desktop screen, desk lamp, multiple cable-feed methods, telescopic frame sizing

03 · DESIGN KINZO / JOERI REYNAERT

Unit & Morse

Workstation System

Communication and concentration workplaces in one design signature.

Unit & Morse is a high-design workstation programme by KINZO / Joeri Reynaert — “exclusive to hardcore elite.” Unit reproduces communication and concentration workplaces in one design signature, balancing individual respect with collective goals.

Unit’s distinctive Y-shaped desk outline and fixed 35 mm rounded corners create a visible link across desks, storage and wall suite elements. Morse is more than a cable bridge: it adds desktop screens, message boards, lighting and soft accessories for modular, decorative function.

- Signature Y-frame desk with 35 mm chamfer continuity across the system
- Configurations: open-plan, Unit bench, wall suite, wall concentrate, private workspace
- Morse modular function bridge for cable, privacy, lighting and soft décor
- Concealed cable management; flexible multi-functional storage

VERSIONS & DIMENSIONS (MM)	
Desktop corner radius	35 mm (fixed chamfer detail)
	System supports single desk, double desk, meeting/creative areas and screened focus zones
	Exact WxDxH size ladder not printed in brochure confirm with MATSU sales drawings
Designer	KINZO, Joeri Reynaert
Storage	hanging cabinet (double), drawer cabinet, single hanging cabinet, double-sided floor cabinet, sliding side cabinet
Unit Panel	vertically bevelled side profile, rounded corners echoing Y-frame; concealed connectors
Zone planning language	Focus / Collective-Meet / Work / Storage / Sofa
Unit desk system (single / double)	to project —
Morse modular bench	to project —
Unit screen panel	to project —

03

M-pur*

Modular Workstation System

Original German design where clarity of construction meets pure aesthetics.

M-pur (Mpur) is a modular workstation system from MATSU's partner planmöbel — original German design where clarity of construction meets pure aesthetics. Floating desktops, rich screens and accessories let every user personalise a unique workplace.

Simple diversity: one clear-lined desk language for staff floors, manager suites, conference rooms and home offices.

LICENSED PRODUCT* · NOT AVAILABLE IN ALL MARKETS

* Licensed product: either imported from the original manufacturer or manufactured by MATSU under official licence in the original design.

- Fully modular structure — multi-angle connections, easy reconfiguration
- Floating desktop aesthetic with comprehensive cable management
- Screens in steel, fabric-steel and glass; 40/60 aluminium alloy and gusset screens with cable trough positions
- Optional sit-stand desk with foot-pedal control, travel 710–1120 mm

MATERIALS

Veneer · Glass · MFC · Lacquer – finishes in the Materials Library, p. 222

VERSIONS & DIMENSIONS (MM)

Desk sizes	customisable (catalogue notes size can be customised)
Sit-stand height range	710–1120
Hanging rack slot	D 25 × H 75; with 25 mm top → rack height H 175
Rack screen type 1	D 25 × H 375 (5 aluminium slots); type 2: D 25 × H 450 (6 slots)
Fabric screen	D 25 × H 375 or H 450
Glass screen on rack	H 200, corner R50, 6 mm toughened frosted glass
Side cabinets	heights 647 / 1200 / 1350; with or without PC bay; wardrobe option
Manager floor cabinet hanging	L or R relative to seated user
Tops	MFC, veneer, lacquered
Panel fabrics	MTPF range; aluminium slot finishes sand white C-S-A-31 / light silver C-S-A-18
Cable routes	horizontal trough; vertical via cable column (6 cores), spiral hose (16–20), shared foot; cabinet-top 86-panel outlets
Accessories	file tray, pen cup, screen shelf, nameplate, monitor arm, PC shelf, external whiteboard

03

Motu*

Height-Adjustable Desk

Its A-shaped leg architecture earned Motu the German Design Award.

Motu is an award-winning height-adjustable desk from MATSU's partner Westermann WP Office — original German design built for "liquid office" culture where people move freely between sitting and standing.

Winner of the German Design Award and Focus Open Special Nomination for its unique A-shaped leg architecture and superior structure. Super-silent German motors deliver steady, quiet travel across a 600–1250 mm range, with three memory positions for quick posture changes.

LICENSED PRODUCT* · NOT AVAILABLE IN ALL MARKETS

* Licensed product: either imported from the original manufacturer or manufactured by MATSU under official licence in the original design.

- Electric sit-stand travel 600–1250 mm; 3 memory heights
- Instability, overload, collision, overheat and reset alerts (E02–E09)
- Unique A-shaped table legs for stable support; wide or narrow profiles
- Optional embedded power rail with add/remove modules; spring cable routing

MATERIALS

Veneer · Ash · MFC · Lacquer – finishes in the Materials Library, p. 222

VERSIONS & DIMENSIONS (MM)

Adjustable height	600–1250 (recommended standing 1000–1250; seated ~740±20)
	Wide steel / wide ash-wood single & meeting: W 1400–2400 × D 800 or 900
Large meeting (wide steel/wood)	W 4000/4800 × D 900 × H 600–1250
Narrow steel single	W 1400–2400 × D 600/700/800/900
Narrow steel staff bench	W 1400/1600/1800 × D 1200/1400
Power rail guide	800 mm rail for 1400–1800 desks; 1200 for 2000; 1400 for 2400
	Original German design & supervision; German-brand motor
Legs	powdered steel (black/white gloss) or ash wood wide or narrow
Tops	MFC, veneer or lacquered
Options	power rail, power module, USB module, hi-fi Bluetooth speaker, fabric screen, PC shelf
Single desks	steel cable box under desk; meeting tables: steel cable slot

Pulse Tables

The ECG-inspired leg design of the Pulse family, carried over into its tables.

The MATSU Pulse Sofa, designed by Joeri Reynaert, pays homage to the legendary Barcelona Chair by Mies van der Rohe. Its generous proportions and distinctive ECG-inspired leg design give the sofa a strong, dignified presence.

Pulse acts like a “heartbeat” in modern office environments – injecting energy and dynamism into otherwise calm spaces. Ideal for executive lounges, premium reception areas, and high-end collaborative zones.

Prestige Large Round Side Table

Schematic – dimensions in mm · manufacturer drawing

A powder-coated steel frame for visual lightness, a sintered stone top for a refined character.

The rectangular Matsu Prestige Side Table offers a generous surface and a strong architectural presence. Its elongated proportions make it ideal as a sofa-side table, low console, or functional accent in lounge and waiting areas.

The powder-coated steel frame provides stability and visual lightness, while the sintered stone top adds a refined, premium character. Perfect for both residential and contract environments.

VERSIONS & DIMENSIONS (MM)

	Powder-coated steel frame
	Sintered stone tabletop
Colors	Black, White, Armani Grey
	The Matsu Prestige Side Tables combine architectural clarity with refined materiality. Designed as versatile companions for lounge, living, and reception areas, each table features a minimalist powder-coated steel frame paired with an elegant sintered stone tabletop.
	Sintered stone is renowned for its durability, resistance to heat, scratches, and stains, while maintaining a natural stone appearance. The collection is available in Black, White, or Armani Grey, offering timeless elegance and seamless integration into contemporary interiors.
	The Matsu Prestige Side Tables are available in three distinct formats to suit different spatial and functional needs.

Clouds Coffee Table

A light tabletop that seems to float above slender metal legs like a cloud.

Clouds pairs delicate metal with soft wood: a light tabletop that seems to float above slender metal legs like a cloud. Softly rounded edges and a precise floating connection make it a calm, modern accent.

- Tabletop visually floating above the metal base
- Softly rounded edges
- Delicate metal legs with thin top
- Three heights for different uses

VERSIONS & DIMENSIONS (MM)

Clover Lounge Table

Shaped like the lucky four-leaf clover, on a water-drop base that spreads like ripples.

Clover takes its shape from the lucky four-leaf clover: colourful tops in four heights that combine into lively new arrangements. A water-drop base spreads like ripples, and the hidden connection between leg and top keeps the surface perfectly clean.

- Clover-inspired tabletop shapes in multiple colours
- Water-drop, ripple-like base
- Concealed connection recessed into the underside of the top
- Four heights for varied combinations

Tagliato Chair

Standard (without armrests)

Inspired by the careful pruning of a plant, a clear, reduced form with strong character.

Tagliato (Italian for “cut”) is a design chair defined by precise cuts on the seat, legs and backrest. Inspired by the careful pruning of a plant, the result is a clear, reduced form with a strong character.

The softly curved, ergonomic backrest provides a comfortable seating experience. Its clean lines and absence of armrests make the Tagliato Standard especially light and versatile – equally at home in offices, conference rooms or contemporary living environments.

eTea Chair*

A sculpted T-shaped back gives eTea an almost otherworldly character.

eTea, designed by Dieter Kusch, is a distinctive stacking chair whose sculpted T-shaped back gives it an almost otherworldly character. Upholstered seat, soft fabric and warm wood create a rich interplay of texture and colour for cafés, meeting points and collaborative areas.

LICENSED PRODUCT* · NOT AVAILABLE IN ALL MARKETS

* Licensed product: either imported from the original manufacturer or manufactured by MATSU under official licence in the original design.

- T-shaped backrest that fits the back closely and relieves the spine
- T-shaped back doubles as a handle for carrying and easy cleaning
- Upholstered seat in fabric, combined with wood
- High-gloss chrome footrest with automotive-grade bumper finish
- Stackable
- Non-slip plastic glides that protect the floor

Tagliato Chair

with Armrests

Short armrests fixed to the legs let the chair hang on the table edge, floating above the floor.

The Tagliato with armrests brings the signature “cut” design of the series into a more functional version. Seat, legs and backrest are precisely shaped – inspired by the deliberate pruning of a plant.

The short armrests are fixed to the chair legs and give the piece additional character. At the same time they are highly practical: the chair can be hung on the edge of a table so that it floats above the floor – ideal for everyday cleaning. The ergonomic backrest ensures lasting comfort.

A chair without rigid boundaries – suitable for offices, meeting areas and refined living spaces.

05

Tagliato Bar Stool

Wood and metal give the Tagliato bar stool a distinctive character and timeless elegance.

The Tagliato Bar Stool elevates the series' distinctive cut design. Seat, legs and backrest are deliberately reduced and shaped – inspired by the careful pruning of a plant. The result is a clear, sculptural form with strong presence.

The combination of wood and metal gives the bar stool a distinctive character and timeless elegance. The ergonomically curved backrest provides comfortable support, making it ideal for bars, counters, hotel lounges or modern workspaces with high tables.

Simple, functional and full of design personality – the Tagliato Bar Stool.

05 · DESIGN ANTONIO SCAFFIDI & MADK. JOHANSEN

ARN Chair*

LICENSED PRODUCT* · NOT AVAILABLE IN ALL MARKETS

* Licensed product: either imported from the original manufacturer or manufactured by MATSU under official licence in the original design.

A powerful frame and a slender, upward-reaching silhouette.

ARN by Antonio Scaffidi and Mads K. Johansen is a contract chair with a powerful frame and a slender, upward-reaching silhouette. It combines wood, plastic and aluminium around an injection-moulded polyamide 'chassis' that gives it exceptional stability.

- Seat chassis in injection-moulded polyamide with calculated corrugated inner structure
- Deformation-resistant box construction of chassis and seat 'lid'
- Combination of wood, plastic and aluminium
- Stackable, even in mixed piles
- Inspired by the principles of the classic 1947 series 100 chair: simplicity and sophisticated seat construction

VERSIONS & DIMENSIONS (MM)

Aluminium-leg versions support up to 150 kg

05

July Executive Office Chair

A crisp, metal-accented exterior with a surprisingly soft, supportive core.

July is an executive office chair with a crisp, metal-accented exterior and a surprisingly soft, supportive core. Every component is designed around a healthy sitting posture, making it equally at home in the executive office, the client meeting or the negotiation room.

- Adjustable seat height
- 2D polished aluminium armrests with DuPont nylon casing and PU pads
- Synchronised tilt, adjustable to body shape and weight
- Seat cushion with integrated lumbar pillow for consistent lumbar support
- Suspension seat with high-resilience silico-manganese steel springs
- Ergonomic chassis that lowers and moves the seat forward as the back reclines

VERSIONS & DIMENSIONS (MM)

Versions with headrest **leather-upholstered, fabric-upholstered or mesh back**

Standard working chair **W 665 D 670 H 1060–1140 SH 450–530**
Fabric (Gabriel MAGA) / mesh / microfibre leather

05 · DESIGN ANTONIO SCAFFIDI & MADK. JOHANSEN

Njord Chair*

A sculpted backrest of solidified felt on solid wood legs.

Njord, by Danish duo Antonio Scaffidi and Mads K. Johansen, combines a sculpted, solidified-felt backrest with solid wood legs. The award-winning design (four international awards in 2012–2013, including Red Dot and iF) is remarkably light, yet strong and comfortable.

LICENSED PRODUCT* · NOT AVAILABLE IN ALL MARKETS

* Licensed product: either imported from the original manufacturer or manufactured by MATSU under official licence in the original design.

- One-piece moulded felt backrest – tough, stable and visually soft
- Solid wood legs for firm support
- Comfortable upholstered seat
- Ergonomic shape that supports back and lumbar region in every posture
- Red Dot and iF award winner
- Matching round coffee table 3005-6 with sintered-stone or MFC top

05 · DESIGN JUSTUS KOLBERG

Profession Training Chair*

LICENSED PRODUCT* · NOT AVAILABLE IN ALL
MARKETS

* Licensed product: either imported from the original manufacturer or manufactured by MATSU under official licence in the original design.

A slightly raised seat front tilts the body gently back, relieving the legs in long sessions.

The Profession chair by Justus Kolberg is a concise, ergonomic multi-purpose chair for training and conference spaces. Its slightly raised seat front tilts the body gently backwards, relieving pressure on the legs for comfortable long sessions.

- Slightly raised seat shifts weight towards seat back and backrest
- Optional writing tablet for meetings and training
- Optional castors for easy moving
- Stackable or nestable to save space
- Available in multiple colours and models

São Paulo Office Chair*

LICENSED PRODUCT* · NOT AVAILABLE IN ALL
MARKETS

* Licensed product: either imported from the original manufacturer or manufactured by MATSU under official licence in the original design.

A seat that appears to float above the base, in a clear-cut silhouette free of visible levers.

Named after Brazil's great metropolis, São Paulo by Norbert Geelen distills the office swivel chair to its essentials: a seat that appears to float above the base and a clear-cut silhouette free of visible levers or buttons. Class-A freeform surfaces, borrowed from high-end automotive design, give it an exceptionally refined finish.

- Dual synchronised mechanism that follows the user's movement while providing constant support
- Seat height, seat depth and forward tilt adjustment as standard
- 2D or 3D adjustable ergonomic armrests
- Trapezoidal backrest with mesh or upholstered pad
- Lumbar support, individually height- and depth-adjustable; optional height- and depth-adjustable headrest
- All controls fitted flush underneath the seat; fold-out coat hanger

Cuka Conference Tables

Standalone or Modular Runs

The Cuka conference tables extend the Cuka workstation system into the meeting room.

The Cuka conference tables extend the Cuka workstation system into the meeting room. Use them as standalone tables from 1400 to 2400 mm, or combine Start, Middle and End modules into long conference runs of any length – with the same powder-coated steel A-legs and clean cable management as the workstations.

- Standalone tables or Start / Middle / End module runs
- 25 mm tops in white MFC or veneer
- Design consistency with Cuka workstations and high tables

MATERIALS
Veneer · MFC · Powder – finishes in the Materials Library, p. 222

VERSIONS & DIMENSIONS (MM)	
Standalone table	W 1400 D 1400 H 715, W 1600 D 1400 H 715, W 1800 D 1400 H 715, W 2000 D 1400 H 715, W 2400 D 1400 H 715 MFC white 25 mm / Veneer 25 mm

Cuka High Tables

Bar-Height Meeting and Work Tables

The Cuka high tables bring the Cuka design language to bar height.

Stand-up meetings, quick check-ins and touchdown work: the Cuka high tables bring the Cuka design language to bar height (H1025). Available single-sided or face-to-face in widths from 1000 to 2400 mm, they are the perfect hub for collaborative zones and open-plan offices.

- Bar height H1025 mm – ideal with high stools
- Single-sided (D800) or face-to-face (D1200)
- 25 mm tops in white MFC or veneer

VERSIONS & DIMENSIONS (MM)

Single-sided	W 1000 D 800 H 1025, W 1200 D 800 H 1025, W 1400 D 800 H 1025, W 1600 D 800 H 1025, W 1800 D 800 H 1025, W 2000 D 800 H 1025
	... MFC white 25 mm / Veneer 25 mm
Face-to-face (double-sided)	W 1200 D 1200 H 1025, W 1400 D 1200 H 1025, W 1600 D 1200 H 1025, W 1800 D 1200 H 1025, W 2000 D 1200 H 1025, W 2400 D 1200 H 1025

IN THIS CHAPTER

176 Wings Kinetic Hanging
Decoration

177 Co Lamp Desk Lamp

219 Roxxane Office Desk Lamp
with Base*

Wings Kinetic Hanging Decoration

Hand-upholstered fabric wings on a solid-wood pole turn and sway softly with every breath of air.

Wings brings gentle movement and lightness into any interior. Hand-upholstered fabric "wings" sit on a solid-wood balancing pole with a gravity ball and an ABS revolving shaft – suspended from the ceiling, they turn and sway softly with every breath of air. A poetic eye-catcher for lobbies, lounges, meeting rooms and hospitality spaces.

Not to be confused with the Wings sofa family – this is the decorative hanging object.

- Hand-upholstered in Kvadrat Revive 2 fabric, in a choice of colour pairs
- Balanced kinetic design: solid-wood pole, gravity ball and revolving shaft
- Three sizes: small, medium and large

VERSIONS & DIMENSIONS (MM)

Wings, small	W 865 D 100 Kvadrat Revive 2
Wings, medium	W 1065 D 110 Kvadrat Revive 2
Wings, large	W 1365 D 130 Kvadrat Revive 2

Soda

Modular Workstation System

A modular bench and desk system organised around stability, cable order and human scale.

A modular bench and desk system organised around stability, cable order and human scale. Screens combine wood and metal so they stay rigid and absorb sound better than all-metal frames.

Build single-row or face-to-face benches with start, middle and end modules. Independent desks and executive stations share the same structure. Work height is 740 mm.

MATERIALS

Solid wood · Felt – finishes in the Materials Library, p. 222

VERSIONS & DIMENSIONS (MM)

SD-MA executive	1600×800, 1800×800, 2000×900, 2400×900 × H 740 (left or right)

SonoPod

Acoustic Phone Box and Meeting Booths

The SonoPod brings quiet into the open office.

The SonoPod from the CHiC collection brings quiet into the open office. From a one-person phone box to booths for up to eight people, every cabin is delivered complete: structure, acoustic glass, felt interior, worktop, sensor light, ventilation fan and power (220 V / USB) – with approx. 30 dB noise reduction.

- Five sizes: PX-1 (1 person) to PX-5 (4–8 persons)
- Shell in white, silver, black, titanium or champagne
- Sensor light, fan and power included; door hinge left or right

VERSIONS & DIMENSIONS (MM)

Phone box, 1 person	W 1122 D 1152 H 2300 Powder-coat shell · acoustic glass
Acoustic booth, 2 persons	W 1600 D 1300 H 2300 Powder-coat shell · acoustic glass

NOMADIC · LHAYAK

Yak leather & yak-hair cloth

Tibetan yak hide and hand-woven yak hair, developed by Joeri Reynaert Studio, MATSU and LHAYAK. Used on Skin Sofa, Skin Lounge, Skin 360°, Wrangler leather, Horns, Coffee Chair and the LangChan leather option. Non-chromium leather process. Hair is shorn once a year – natural black, grey and brown in a regional hand-weave. Natural grain and marks are part of the specification. Lock the MATSU colour code.

NOMADIC · HARD SURFACES

Solid wood & sintered stone

Hard surfaces on Drumroll, Camp Tea Table, Disk and the Skin / Wrangler bases. Solid wood mainly from North America and Europe, medium-to-high hardness – a renewable raw material. Sintered stone: scratch- and heat-resistant with very low water absorption; typical use on the Camp Tea Table and related tops.

R2

Selected projects

01

OFFICE · DUBAI SOUTH, UAE

StarHeaven

Complete fit-out of StarHeaven's new office – from concept to installation, the workspace was designed and realised as one coherent environment by anySCALE. It brings together pieces from the Nomadic Collection, a wide range of MATSU furniture and customised pieces tailored to the space. MATSU's first project in the Middle East.

Interior design: anySCALE

ESPRESSO LUNGO 2.70
AMERICANO DOUBLE 4.50
CAPPUCCINO LATTE 5.00
CHAI LATTE MATCHA 5.50
CHOCOLAT S. MOXA 5.50
JUICES 8.00
BOSE & CADAMONE 6.00

02

HOSPITALITY · PARIS, FRANCE

Café Moka

A specialty coffee destination in the heart of Paris. Above the counter hangs the NOMAD Mesh Lamp as the centrepiece – crafted in natural waxed, laser-cut yak leather. MATSU provided a complete furniture and lighting solution tailored to the space.

Interior design: Selena Goldsztajn, Selena Architecture

03

OFFICE · 2026

Renault Group

Office furniture by MATSU for Renault Group – reception, lounge and café areas.

Porsche

MATSU equipped Porsche's R&D Center with agile furniture solutions. The interior design by anySCALE follows the S.P.A.C.E 4.0 philosophy – Smart, Passionate, Attractive, Collaborative and Engaging – turning a traditional office into an activity-based, open-plan workplace with dedicated zones for focused work, collaboration and wellbeing.

Interior design: anySCALE

05

OFFICE · 2025

CBRE

CBRE, the global commercial real estate services and investment company, has relied on MATSU for several of its headquarters – each with a complete office furniture solution, including NOMAD lounge seating.

Roche

An open, light-filled workplace: natural light through glass walls reaches more than 90 % of the seating areas. Tabletop screens create open workstations that balance privacy and communication, while low cabinets and open shelving keep the space transparent. The furniture materials helped the project obtain LEED certification.

Hecom

Meeting and lounge areas with comfortable, high-quality seating – including lounge chairs from the Nomadic Collection.

08

OFFICE · 2025

Dentons

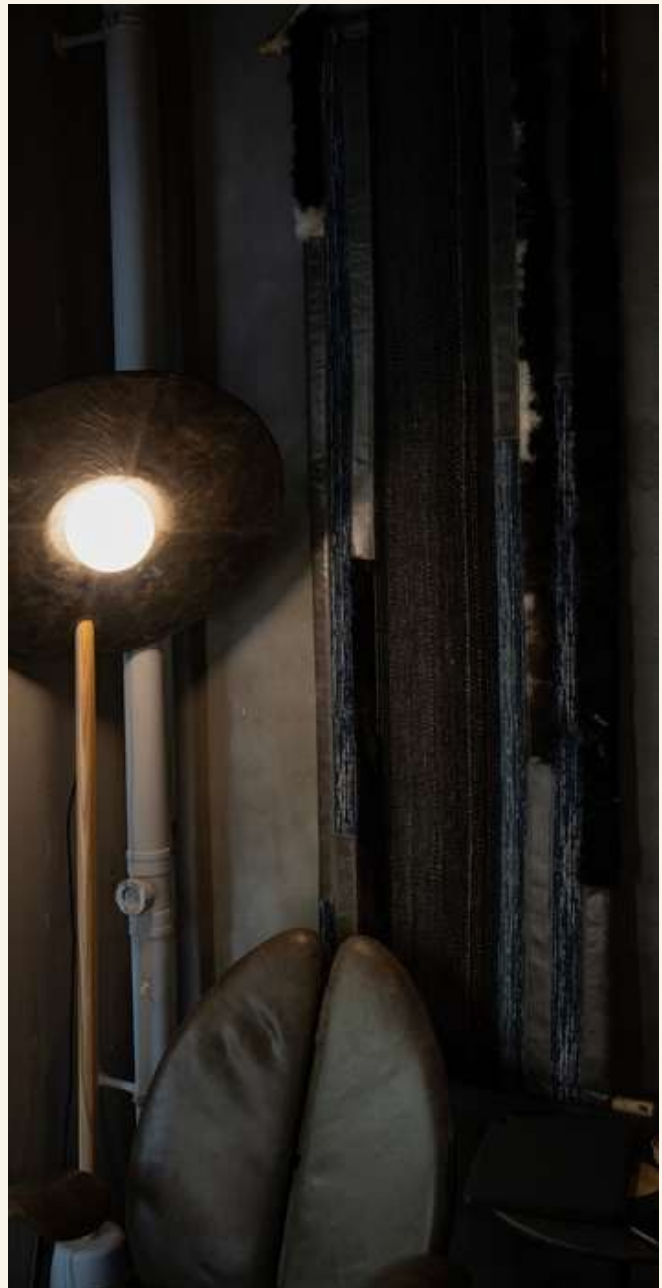

Workplace and terrace lounge for the law firm Dentons, furnished by MATSU.

Regus

Lounge area for the flexible workspace provider Regus, furnished by MATSU.

LAYAK Studio

A showroom that shows the character of the Nomadic Collection: NOMAD furniture in yak leather and yak wool, together with NOMAD lamps.
